Kinkless Hose
High quality, industrial-grade kinkless hose is specially blended for use on reels.

Long-Lasting Latch Spring
A stainless steel torsion spring is used on the latch to insure maximum life.

Corrosion Resistance
Steel components are individually powder coated and combined with composite materials, which resistably attack acids and caustics.

Long Service Life
One-fifth power steel means long service life.

Hose Retracts Every Time
ReelTek's latch mechanism is mounted on the arm to insure hose extends and retracts every time.

Easy Maintenance
The glass-filled composite spool and spring case contains the industrial-grade drive-spring. The spring is protected from the environment for longer life.

Versatile Mounting
The guide arm can be adjusted to any of seven convenient locations.

Structural Strength
The base and guide arm are made of heavy gauge steel stampings, with re-enforced ribs to increase structural strength. Base which is 19" inside diameter (I.D.), 30" outside (O.D.).

Easy to Mount
The base features a 4" hole for easy mounting.

Installation

Step 1: Mount reel to wall.	Step 2: Tensioning spring and lock indicator.
Step 3: Mount hose to reel and cut the program code.	Step 4: Mounting and locking the reel to insure proper retraction.
